Providing the best computer solutions available for businesses and home users.

Computer equipment is a major investment, we can put your mind at ease with recommendations based upon your computing requirements. We research products and manufacturers, offering quality, fast performance and reliability. After listening to your needs, and your plans for the future we will recommend, implement and complete a customized solution that will bring results.

Get exactly what you need without paying for extra features.

Our "open-standard" computers are assembled with name-brand components; including optimal software flexibility and upgrading. We stock a variety of parts including hard drives, CPU, power supplies, mice, memory, video, sound, ethernet cards, CD and DVD burners, monitors, cables, surge protection, cables and much more. Non-stock items are ordered with a short turn-around time.

Hardparts' small business support services include a variety of satisfied customers; schools, government, law firms, non-profit agencies, physicians, realtors, architects, industry, auto dealerships, and much more.....

For the Hospitality Industry, our Point-Of-Sale (POS) equipment and software offers fail-safe data protection and synchronization. We sell, service and support Point-Of-Sale (POS) equipment and software. Most importantly, it renders the ability to customize features according to the customer's specific requirements.

Yes! We Make Service Calls!

On-site - Technicians are dispatched daily for on-site service. Each vehicle is stocked with standard parts, software and testing equipment. We come prepared to install networks, diagnose, repair, and upgrade computers. On-site servicing is a great solution to keep your business up and running!

Emergency Services – Facing deadlines and your computer isn't cooperating? Is your business dependant on your computer? *We can help!* We make every effort possible to assure downtime is minimal.

Excellence in customer service is a priority we achieve by providing courteous, prompt, quality service.

Hardparts Technology Services is conveniently located at

244 West Main Street in downtown Ravenna, (next door to Picciones Jewelry), 6 miles north off of I-76. Store hours Weekdays: 10 - 6, Saturdays: 9 - 1 p.m. Special appointments for service calls and different shift times can be made for our customer's convenience.

Certified Professionals use state-of-the-art testing equipment.

SONY Authorized Service Center

In-shop repair - We specialize in servicing workstations, desktops, servers, notebooks, data recovery, virus removal, tape back-up, insurance claims, for small businesses and individuals. Every system undergoes a quality control procedure as well as each system is demonstrated to our customer's satisfaction before it leaves our store. We'll be glad to carry your equipment to and from your vehicle.

Not sure if it's worth investing more money? For peace-of-mind let us make your decision easier - have us do the work, *we waive our diagnostic fee.*

Hardparts' Network Engineering Team performs site inspections for designing, installing and maintaining networks. Establishing a network of computers allows sharing of files, applications, printers and more. Whether it's peer-to-peer, wireless, LAN, WAN, RAS, VPN, DSL or cable network, we offer solutions and assist with maintenance. We evaluate internal hardware for planning future installments, upgrades, and system updates. Our Microsoft Certified Systems Engineers (MCSE) assist in software installations, upgrades and migrations.
